

THE BLAIRMORE ENTERPRISE

VOL. XXXV., NO. 14.

THE BLAIRMORE ENTERPRISE, FRIDAY, APRIL 14, 1944.

200 PER ANNUM.

CENTRAL UNITED CHURCH BLAIRMORE

Rev. E. R. Arrol, B.A., Minister

Services Sunday next:
11.00 a.m., Senior school.
2.00 p.m., Junior school.
7.30 p.m., Public Worship.

ST. LUKE'S CHURCH, BLAIRMORE

Rev. J. R. Hague, A.T., Incumbent

Services Sunday next—
11 a.m., Matins and sermon.
12 Noon, Sunday School.

SALVATION ARMY, COLEMAN

Lieut. S. Nahrney and R. Hammond,
Officers in charge.

Sunday services:
11.00 a.m., Holiness Meeting.
3.00 p.m., Sunday School.
7.30 p.m., Salvation Meeting.
Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.
Wednesday: Sunbeam Brownies at 4.30 p.m., Boys' Cubs 6 p.m.
Thursday: 8 p.m., Praise Meeting.
Funerals and dedications on application to the local officer.

BELLEVUE BAPTIST CHURCH

Pastor Evangelist: Alfred Siple

11 a.m., Sunday school.
7.30 p.m., Evangelistic service.
We preach the Victory Life of Christ, and invite you.

HILLCREST UNITED CHURCH

Services every Sunday at 3 p.m.

BELLEVUE UNITED CHURCH

Services at 7.30 p.m. every Sunday.

COWLEY UNITED CHURCH

Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

AIR CADETS OF CANADA

Signals, "A" Flt 2030-2115

Fridays—
Armament parade 1830 hrs

NEW AGE LIMITS
FOR AIR CREW

Changes in age limits for air crew have been made public as follows:

17½ years of age to full 28 years.

Candidates under 18 years will be posted on leave without pay until they reach their 18th birthday. Full time students, air cadets, or others fully qualified and who have passed their 17½-year mark and have not reached 18½ years may be enlisted and placed on leave without pay, to report for duty after they have attained their 18th birthday and prior to reaching 18½ years. Ground crew are not required at the present time.

Flying Officer A. Muir, interviewing officer of the recruiting, will be in Blairmore on Monday, April 24th, from 2 to 10 p.m., at the Greenhill hotel.

The Elks' Save the Children Fund now exceeds \$30,000.

The things that come to the man who waits are usually not worth waiting for. Get going now!

EASTER SERVICES AT THE UNITED CHURCH

At Central United church both the morning and evening services on Easter Sunday were well attended, especially the evening service, when the church was crowded. In the morning, the Sacrament of the Lord's Supper was dispensed and special music was provided by a boys' choir, the soloist being Billy Womersley, who sang "This Joyous Easter-tide."

At the evening service two anthems, "Sun of My Soul" and "The Twilight Shadows Fall," were rendered by the choir, which had been trained for this special occasion by Mr. W. G. Moffatt. A duet was pleasingly sung by Reita Bonneau and Muriel McLeod. Solos were given in excellent voice, "Calvary" and "The Palms," respectively, by Mrs. Alfred McKay and Shirley Rae. The boys' choir, under leadership of Mrs. S. G. Bannan, sang with much acceptance "O Joyous Easter Morning," and Billy Womersley repeated his solo of the morning in his usual captivating manner.

Led by Evan Gushul, the string quartette, in fine harmony, played "Jesus, I Come." The congregational singing was very uplifting and inspiring in the singing of the familiar Easter hymns, including "Low, in the Grave He Lay... Up from the Grave He Arose." Ruth Arrol was organ accompanist for the congregational singing and choir anthems, and other accompanists were Ester Erikson and Elsie Arrol. The minister, Rev. E. R. Arrol, B.A., gave an appropriate short address.

LETTERS FOR BOYS OVERSEAS

Through the efforts of a local boy, Mike Amatto, a few thousands of cigarettes have been forwarded to Blairmore boys in the services.

The fund was raised through what is known as the Fun Club, holding whist and bingo parties in the Oliva hall on Thursday nights for several months past. The fund to date exceeds \$350.

C. W. FOULSON PASSES

AT COWLEY

The death occurred on Friday night last of Charles W. Foulson, longtime resident of the Cowley district. Born at Providence, Utah, Mr. Foulson came to Canada in 1883, working on the construction of the CPR between Medicine Hat and Calgary. Later he moved to the Pincher Creek district, coming to Cowley in 1918 where he located on a farm north of town.

He had been suffering for a long time from heart trouble. He was in his 79th year and is survived by two sons and two daughters, the eldest son, Horace, being overseas. The remains were laid to rest in the Livingstone cemetery on Sunday afternoon.

The many friends of Chester Landon are glad to see him around again following amputation of an arm a couple of weeks ago or more. Chester suffered injury to his arm at the Blairmore Iron Works.

Nobody ever gets paid for being disagreeable except the traffic cop.

TO SUPPORT LOAN CAMPAIGN

Lt. W. R. McIntyre, CSM F. Cooney, L. Corp. C. W. Moncrieff and Pte. W. Z. Domais will return to Alberta this week end from active service in Italy to take part in the Sixth Victory Loan campaign. They will speak to loan rallies in different parts of the province.

Announcement is made that the Victory Loan plaque on parliament hill, Ottawa, will be dedicated and then flown to Edmonton, to be also dedicated there on Sunday evening, April 23rd, and at Calgary on the following day.

A bunch of elk were seen in the vicinity of the Wakaluk ranch on the South Fork the early part of the week, and just about the same time another herd of Elk were seen navigating the highway between Blairmore and Granum. We were unable to secure the names of the first bunch, but prominent in the latter were Bill Old, Bill Vejprava, Bill Jones and Bill Walek. They left town on foot for Granum, a little pasturage some 70 miles east of here. Suffering from shortage of gas, oil, tires, etc., they stopped to have to hoof it, and were they, however, when picked up by Bill Meier, who was travelling in the wrong direction!

Francis E. Forde, army minister, announces that the Australian army will be reduced by 90,000 men within the next twelve months. The releases will include 20,000 men for industry.

Twenty-two presidents of the United States were lawyers.

COWLEY HAPPENINGS

Miss Jeanette Fournier, of the Blairmore teaching staff, spent Easter holidays with her parents at the ranch home.

Miss Helen McKuck, of Lethbridge, is visiting at the home of Mr. and Mrs. L. A. Feller.

John Percevault, who is teaching at Westward Ho, came home for the Easter week end.

The ladies of the Anglican church held a very successful tea and miscellaneous sale of home cooking, sewing, handwork, etc., in the Masonic hall on Saturday afternoon.

Miss Mollie Milvain, of Calgary, and Jimmy Gunn, of the RCAF at Caresholm, spent the Easter holidays with their parents here.

Many enthusiasts are getting their gardens in readiness for planting. Weather permitting, we hope to get an early start with vegetables.

Mrs. C. J. Bundy is a patient in hospital at Pincher Creek.

Alvin Murphy was a visitor to Calgary the early part of the week.

Miss Helen Morrison, of the Calgary teaching staff, spent Easter here with her parents, Mr. and Mrs. H. C. Morrison.

Mrs. M. William, who has spent several months with her daughter, Mrs. Lea Tustian, and family at Michel, has returned to spend some time here with her daughter, Miss Nellie McWilliam.

A large congregation was in attendance at the Easter services in the Anglican church on Sunday, during which the Sacrament of the Lord's Supper was observed. Rev. Mr. Green, of Brocket, was in charge.

RED CROSS NOTES

Red Cross workers please note that a shipment will be forwarded next week. Kindly return articles to rooms by Wednesday, April 19th.

COWBOY FACES MANY CHARGES

Arrested at Pincher Creek on Wednesday, a 20-year-old cowboy, David Henry Burton, whose home is in Saskatchewan, faces a series of charges of false pretenses, involving worthless cheques for small amounts up to \$50, cashed with merchants in Calgary, Lethbridge, Medicine Hat and other points.

All men may be born equal, but it's what they are equal to later on that counts.

Some parts of the scripture have now been published in 1,052 different languages.

The March number of The Canadian Elk carries a picture of the Blairmore patrol team.

Mr. W. Leigh, of Western Grocers, Lethbridge, was a business visitor to the Pass this week.

The local Victory Loan committee are busy getting their office in the Fumagalli garage building in readiness for the big drive.

Flying Officer James McPegan arrived in town the early part of the week on furlough from Saskatchewan. James has seen action in North Africa and other points.

A new BPOE lodge was instituted at Round Hill on March the 9th by Organizer P. A. Miquelon with a membership of 44. Round Hill is about thirty miles from Cashmere.

The Canadian hospital ship Lady Nelson has docked at Halifax, bearing about 500 battle casualties and other invalided fighting men. The Western Canada portion are enroute by two special trains.

If there is any fixed star in our constitutional constellation, it is that no official, high or petty, can prescribe what shall be orthodox in politics, nationalism, religion or other matters of opinion, or force citizens to confess by word or act their faith therein. If there are any circumstances which permit an exception, they do not occur to us.—Supreme Court of the United States.

Headed by N. E. Tanner, lands minister, a delegation left Edmonton on Wednesday for Ottawa to make representations to the Dominion government concerning the coal mining situation in Alberta. The delegation includes G. T. Richards, of Drumheller, and Clem Stubbs, of Calgary, representing the mine operators; Angus J. Morrison, M.L.A., secretary, and John Stokluk, vice-president, of District 18 of the United Mine Workers of America.

Income Tax Returns FOR 1943 MUST BE IN NOT LATER THAN 30TH OF APRIL 1944

1. WHO MUST FILE RETURNS?

If you are single, and your income was over \$660.00—
Or, if married, and your income was over \$1,200.00—
Or if you had tax deducted in 1943—you must file returns.

2. WHAT FORMS TO USE

For income over \$3,000.00 use Form T.1 Special.
For income over \$3,000.00 use Form T.1 General.

3. WHERE YOU CAN GET FORMS

You can get income tax forms from—
1. Post Offices.
2. District Income Tax Offices.

Your early co-operation is requested. Over 2,000,000 Canadians will be filing income tax returns. You can help by getting your forms now, and mailing them promptly.

It is important that income tax returns be filed promptly. First, these returns must be filed to obtain credit for tax deduction. Second, to claim any refund to which you may be entitled. Third, to establish the Savings Portion of your tax, which will be paid back to you with interest after the War.

Make your returns now, but not later than 30th of April to avoid a penalty of 5% of your tax.
The unpaid balance of your 1943 tax may be paid any time before 31st of August WITHOUT PENALTY.

GET YOUR "T.4 SLIP" FROM YOUR EMPLOYER

To get a record of your 1943 earnings and tax deductions, ask your employer for a copy of the "T.4 Slip" he filed with the Government. Do this. It will save you time, and help prevent errors.

WORLD HAPPENINGS
BRIEFLY TOLD

Cyrol Freitas Valle, first Brazilian ambassador to Canada, has arrived in Ottawa.

It is estimated that 20,000 Netherlands have been executed by the Germans since May, 1940.

Pier Alexander Pokryshkin was reported to have shot down his first enemy plane, becoming the Soviet ace of aces.

Claud George Bowes-Lyon, 14th Earl of Strathmore and Kinghorne, the father of Queen Elizabeth, observed his 89th birthday anniversary recently.

British poultry raisers are hailing a new machine that makes it possible to take a chicken from the coop, pluck it and prepare it for the oven in less than 10 seconds.

Savings deposits in Canadian chartered banks reached the all-time high of \$2,123,821,000 at Feb. 29, compared with \$2,026,213,000 at Jan. 31 and \$1,785,469,000 Feb. 27, 1943.

Another unit was added to Canada's steadily growing fleet of escort vessels when H.M.C.S. Strathadam was launched at Yarrow's yards in Victoria.

Canadian Defence Headquarters have undertaken a sharp curtailment in the use and issue of tires for the Canadian Army in Canada, and no new tires will be issued for military vehicles.

SUNDAY SCHOOL LESSON

APRIL 16

SAUL'S EARLY PREACHING

Golden text: I am not ashamed of the gospel: for it is the power of God unto salvation to every one that believeth. Romans 1:16.

Lesson: Acts 9:29-38; 11:19-26.

Devotional reading: Timothy 6: 11-16.

Explanations and Comments
Paul Preaching at Damascus, Acts 9:19-26. Two weeks ago we left Paul in Damascus a changed man. The vision of Christ on the way there had changed the rabid Pharisee, the hated persecutor of Christians, into a contrite follower of Christ. In the first chapter of his letter to the Galatians, Paul refers to the story in Arabia about which Luke makes no mention: "When it was the good pleasure of God to reveal his Son in me, that I might preach him among the Gentiles, straightway I conferred not with flesh and blood, neither went I up to Jerusalem to them that were apostles before me, but I went away into Arabia, and again I returned into Damascus. Then after 3 years I went up to Jerusalem. It is thought that by Arabia he meant the Arabian Peninsula, but the country of the Nabataeans in the region of Damascus. Here in solitude Paul thought over his vision and all that it implied for him and his future work, even as Jesus at the beginning of his ministry had gone into the wilderness to meditate on his mission.

On returning to Damascus Paul straightaway boldly proclaimed in the synagogues that Jesus is the Son of God. The Jews who heard him were amazed, recalling among themselves how he had come to Damascus with the avowed purpose of arresting the believers in Jesus. Paul grew steadily in Christian experience and ability to preach, and was constantly "proving that this is the Christ."

The Jews sought to apprehend him. Paul tells briefly what happened in his second letter to the Corinthians (2 Cor. 11:32, 33): "In Damascus the governor under Aretas the king guarded the city of the Damascuses in order to take me, and through a window was I let down in a basket by the wall, and escaped his hands." He was smuggled out of the city by night, as if a criminal fleeing from justice.

Paul Preaching at Jerusalem, Acts 9:26-30. Paul entered Jerusalem, not "breathing threatening and slaughter against the disciples" but breathing Christian fellowship and good will for them. When he tried to join them, they were skeptical of his discipleship and were afraid of him. Paul found his past was against him. "Paul had come to visit Cephas" (Gal. 1:18). He had not come to be indicted into the apostolic office. That authority he had received from the Lord Jesus, not from man (Gal. 1:1). But Paul wished to carry on his Gentile ministry in harmony with the apostles, and there was much that he could learn about the earthly life of Jesus from them. For during those two weeks, Paul and the disciples were afraid of him. The wolf might throw off the sheep's clothing and again reveal the fold." (A. T. Robertson).

But Barnabas, "that good man" (Acts 11:24) came to his rescue. He took Paul by the hand, presented him to the apostles, guaranteed the reality of his commission and the worth of his work in Damascus. Barnabas succeeded in setting the fears of the disciples at rest, and they admitted Paul to intimate and full fellowship.

CANNOT GET OFF

Two Kingston lads hopped on an open freight car for a free ride and couldn't get off again until the train stopped at Belleville, Ont., 60 miles away. Something like that happened to Hitler when he hopped on his war chariot. 2563

Today's
INFANTRY
versatile...fast moving!

2-INCH MORTAR

Chief Sitting Bull would have had his own name for it: probably "Small stove-pipe goes boom! Make much smoke." But the Old Chief wouldn't have sat long in the vicinity of bursting 2-inch mortar bombs.

Primarily a smoke-producing weapon for screening movement, and unexcelled in that role, it is also a regular little Jack the Giant-Killer when it comes to lobbing high explosives into inaccessible enemy positions. It doesn't pack enough authority to be useful against armour-plate, pill boxes or even buildings, but in an anti-personnel role it's a mean little devil capable of seeking out the enemy in his hidden positions and making life very, very miserable.

Every infantryman is a 2-inch mortar man, so that no matter what happens there's always someone handy who can put the weapon into action. That's the Infantry! The versatile lads with brains and fighting hearts!

Needed For Experiment

Frog Famine In Britain Is Hampering Work of Scientists

There is a frog famine in Britain, and newspaper advertisements are offering 4s. (\$1) a dozen for live specimens. They are wanted, not for food, but for experimental purposes by scientific institutions, universities and schools. They have been scarce since the war. In 1941, 2,000 live frogs were flown here from the U.S. in a bomber, in specially built water tanks.

BATTLE OF BRITAIN

A sentence in a speech by Flight Lieut. Tredwell, in the recent foreign affairs debate in the House of Commons, provokes fruitful reflection: "People do not realize that only 700 people took part in the Battle of Britain, which was as important in many ways as Trafalgar and Waterloo."—London Spectator.

The first diadems, worn by the ancients instead of crowns, were made of silk or wool and set with precious stones.

Health
LEAGUE
of
CANADA
presents
TOPICS
of
VITAL
INTEREST

SAFE MILK SUPPLY NEEDED

"Individuals who agitate against pasteurization of milk and milk products are not serving the best interests of their fellow countrymen," the Health League of Canada, said. The League reaffirmed its determination to achieve national compulsory pasteurization.

"Those individuals who, chiefly by letters to newspapers, attack the advisability of pasteurization are either ignorant of the facts or are prompted by other motives," the Health League declared. "The public should realize that these persons are setting up their unsupported opinions against the universal findings of the medical profession and associated scientific workers."

"Milk is a wholesome, beneficial food, if proper precautions are taken. In its raw state it is a menace to health and life," the League said. "It is doubtful if in all the years in human history as many people have been killed, as there have been by drinking unpasteurized milk."

"Weeding out of dairy herds those animals which suffer from tuberculosis, Bang's disease, and other communicable diseases, is a necessary step, but this alone will not assure a safe milk supply," it was stated. Milk has frequently been found to have been contaminated by human handlers.

"Those who oppose pasteurization should be prepared to accept some responsibility for the harvest of lives and sickness taken annually in Canada by such milk-borne diseases as bovine tuberculosis, undulant fever, typhoid and paratyphoid fevers, septic sore throat, diphtheria and scarlet fever."

For Safe Flying

Science Solves Many Stratosphere Problems At Home

How high can men and machines fly? How cold is cold? How much cold can man or machine stand? At what height does man faint from lack of oxygen?

These and many other problems are being solved these days in a department chamber somewhere in compression chambers, in co-operation with the Royal Canadian Air Force, duplicate the atmosphere six miles above the earth.

Out of these experiments in a temperature 70 degrees below zero have come new and finer flying suits, goggles which don't frost over, fool proof oxygen masks, hearing devices which make words plain and intelligible over the roar of four motors, and several secret devices for safe flying. Science in the first instance, then the skill of Canadian workmen, stand back of every pilot or bombardier or navigator as he starts on his increasing offensive sweeps over enemy strongholds.

As science checks and double checks the lessons that the fliers learn, others go to plants for changes in construction or design or method. Everything about war is changing and few more striking examples are to be found anywhere than in the ever growing aircraft industry of Canada.

SPITFIRE HAS NEW ENGINE

The Spitfire fighter plane has a new engine, the Rolls-Royce Griffon, which has a 23% greater capacity than its predecessor, the Rolls-Royce Merlin. The Griffon has a two-speed, mechanically-driven supercharger and performs equally as well at low levels as at a height of 25,000 feet, the height at which most air battles take place.

Muscular tension is believed to be one of the major causes of light sleeping.

Canada's War Effort

Receives High Praise In Article In Russian Newspaper

Dana L. Wilgress, Canadian Ambassador to Soviet Russia, was host at a dinner in Moscow to Russia's new Ambassador to Canada, George Zarubin, and Mrs. Zarubin.

Ilya Lapinsky has written a long article in Red Star, entitled "Canada," giving details of the Dominion's contribution to the war in material and manpower. It cited the participation of the Canadian Navy in sea warfare and related Canada's war effort in praiseworthy fashion.

Canada is enjoying a period of warm friendship on the part of the Soviets.

Tribute To Churchill

The World Needs This Man In The Anxious Times Ahead

Mr. Churchill might have added that he will be 70 years old before this year of 1944—a year filled with great portents for the Allied cause—is over; and even so vigorous a person as he is not looking to new political preferment at that age. But let there be no mistake about this: Britain and the United States and the world need this man in the anxious times ahead. He personifies the valor and the strength and the faith which held back the Nazi tide in modern civilization's blackest hour.—Buffalo Courier-Express.

Spanish explorers in 1508 introduced American timber to Europe, believing it would cure many serious diseases of mankind.

GARDEN NOTES

Buying Plants

For quick results, the use of started or bedding plants will help. These may be secured from the nearest seed firm or florist or professional gardener. They are plants from seed sown outdoors, usually in a hot-bed or greenhouse, and are well grown when set outdoors as soon as danger from frost is over. They now come in a great variety of both flowers and vegetables.

Only by the use of certain started plants is it possible to get flowers and vegetable maturity in some parts of Canada. Petunias, for instance, would hardly reach blooming stage in most parts of Canada if sown from seed outdoors. The same is true of tomatoes, and possibly of cabbage and other things. In transplanting these from the flats or baskets in which we buy them, one should water well, and if the sun is hot it is a good thing to provide a little shade for a day or two. Also, if these plants are in flower or very tall, it is advisable to snip off flowers and pinch back main stems to encourage sturdy growth.

Speed Up Hints

There are various little ways the experienced gardener uses to hasten things along. With tiny seeds like those of lettuce, onion, etc., sowing will be more economical and need less anxious thinning if the fine seed is mixed with a little sand and the mixture spread thinly along the row. Allow potatoes to sprout in a sunny warm room for a week or two and so that sprouts are broken off in planting. Soak the seeds of beans, peas, beets, corn, etc., before planting. For tender and crisp vegetables growth must be kept speeded. If for any reason growth is allowed to halt for a few days then tough, woody fibre results and both flavor and texture are impaired.

Professional gardeners get quick tender growth by making things along. They use a good deal of fertilizer, cultivate at least once a week, and more often in dry weather, and they give their vegetables plenty of room for development. This means such things as carrots, radishes and beets, etc., are thinned from two to four inches apart, and when this space is filled one can start harvesting every other plant, leaving the rest for further development.

Another way the professionals ensure tenderness is to have their vegetables coming along in succession. They would not think of planting all their carrots, beets, beans or anything else at the same time. They spread sowings over a period of weeks. In most parts of Canada one can go on planting carrots, beets, beans and other things right up to the middle of July, thus ensuring a continuous supply of the highest quality young vegetables, until frost.

Thousands Of Trappers Are Engaged In A Lucrative Business

All winter long our streams and marshes have lain silent and still under the grip of ice and snow. But with the approach of spring these quiet places are becoming the scene of intense activity. Thousands of trappers are beginning the spring harvest of Canada's \$2,500,000 muskrat crop.

Clad in warm clothes and hip boots, the hardy trapper leaves the raw winds and cold waters in the early morning to discover what Lady Luck has brought to his trap-line. This is the first step in a chain of events which will result in warm and beautiful coats for my lady of fashion.

The fur of the muskrat is soft and durable and the furrier presents it to the public in many pleasing forms. It is used extensively in its natural, undyed state. One of the most popular pressed forms is known as Hudson Seal. A special exhibit at the Royal Ontario Museum shows the various steps by which the long-haired, brown pelt of the muskrat is converted into short-haired, glossy black Hudson Seal. Muskur is also processed to resemble other furs such as mink, or fur-seal. However, the problems of processing and fashion are for the furrier. They do not concern the busy trapper as he harvests his spring crop, racing, not as the farmer does against the advent of frost and snow, but against the approach of warm weather which renders the pelt of the muskrat unprime and commercially inferior.

Britain Supplies Maps

Royal Engineers Responsible For Production For The Armed Forces

Britain has, for years, been a producer of first-class maps, and has been able to apply a great amount of expert experience to keep the British Army supplied—and not only the British Army, but the American Forces. Under Mutual Aid Lend-Lease, Britain supplies all maps used by the United States Army and the U.S.A.F. in Britain or based on Britain, and most of the maps used by the United States forces in the Mediterranean theatre. The responsibility for map production and supply rests with the Royal Engineers, which has developed a wide-spread organization of highly-trained experts to do the job. One of the main jobs of Royal Engineers Survey in the fields is to supply, at short notice, accurate maps of any locality, and to provide them where, when and in the quantity needed. Every unit is equipped with a truck in which a complete photolitho and rotary printing outfit is contained. The press prints in color at the rate of 4,500 copies per hour. At one point during the North African campaign, the Royal Engineers' mobile press worked 22 hours a day, every day for six weeks without a break.—St. Thomas Times-Journal.

Ran His Own Special

Naval Officer Borrowed A Train From Stationmaster In Sicily

They tell a story now about a naval officer who landed with invasion troops at Licata on the southern coast of Sicily and had to go to Syracuse 200 miles away. All railway traffic had stopped because the line ran too close to the fighting front. So the officer borrowed a train from the local stationmaster and ran his own "special". The officer was Lieut. G. S. Ritchie, D.S.O., Royal Navy, of Aberdeen. He had several ratings with him, and some gear so, he said, "to go by train was the simplest way."

TOUGH ON JAPS

In India the "Mosquito" fighter and reconnaissance bomber is being used over the Burmese rivers against the Japanese barges and other small craft and the result has been deadly. The mortality rate amongst these, already high, has been stepped up still further by this swift twin-engine monoplane.

The Oxford Committee for Famine Relief recently sent the Greek Red Cross \$14,000, most of which was used to buy cod liver oil for the suffering children in Greece.

By HELEN FARTON

McClure Newspaper Syndicate

There was nothing in the day to cause apprehension—blue sky, tiny high cloud puffs, and air like wine. But Lola gripped the car as it idled to a stop by the airport, and her eyes sought Benny's anxiously. "You won't be long?"

"About an hour. Sure you won't come along?"

"I can't."

"Your mother had no right to make you promise. Every day."

"I know. She'll get better about it after a while."

"I hope so," Benny squeezed Lola's hand and hopped out of the car. "But you're going up with me soon. Can't have my wife grounded."

Lola flushed. Wife. Yes, she would be Benny's wife in a few weeks now. The thought brought color to her cheeks and a catch in her breath. She said above the catch, "We— we couldn't drive over to Carlton Field, could we?"

"Worried? You couldn't be worried!" Benny's eyes were incredulous.

"N-o."

Benny glanced hastily around, leaped into the car and kissed her. "Good-bye," he said, his own breath a little short. "Let 'em see."

Lola watched him jump the fence and stride across the field. A plane was just taking off—a blue and silver plane—it occupies a boy and a girl in a red jacket. Lola had seen them climb into the cabin. The girl was laughing. Everyone took a plane in his stride. Everyone who could. There were four privately owned planes on the field in front of Lola now. Not Benny's. He would bring his from the hangar.

But he didn't. He came out and trotted back across the field. "Something's gone wrong," he said. "Pete found it when he fueled the bus and started to bring her out. They're working on her now. But I've got to make Carlton Field in fifteen minutes to meet Major Donley. Carl's taking me."

"Oh, Benny, I knew it!"

"Knew what? It's just a minor matter. Anyway, I'm going with Carl. What's eating you, baby?"

"I don't know," Lola twisted her hands together. She didn't know. Except that she was acting silly. "Couldn't we drive over?"

"Twenty miles in fifteen minutes? Listen, sweetheart—"

Lola leaned forward. She had noticed something. A little gold pin on the lapel of Benny's coat was dangling. "Your pin! Benny, you didn't fasten the safety."

"Thought I did," Benny lifted a hand to the pin. Behind him on the field Carl's gauging figure was climbing into the cabin of his plane. Benny said, "Got to be going, sweetheart."

Lola called after him, "Don't lose the pin, Benny." She tried to fix her mind on it, a tiny horseshoe and two four-leaf clovers. Tried to remember the day she had given it to Benny, fastening it to his coat with fingers that shook a little because his face was so close, and because he had just kissed her, his lips warm and eager on her own.

She heard the engine of Carl's plane sputter, stall, catch. She watched the plane wobble across the field, gain speed, rise—slowly, slowly—and take to the air. She thought, "I'm a crazy fool. There is nothing to worry about. Everyone is careful. Benny's ashamed of me."

She turned on the car radio. "Pools rush in . . . Open your heart

and let this fool rush in." She shut it off.

The blue and silver plane had come back. The boy got out, and the girl with the red jacket. She was still laughing. She stooped and picked up something. She held it in her hand as she came towards the car. She said to the boy, "Cute little thing. I wonder whose it is?"

Benny's pin! Yes, it lay in the girl's hand, a little horseshoe and two four-leaf clovers. Lola called apologetically, "I guess that's my pin. At least—"

"Oh!" The girl came over and gave it to her. "Glad I found it." Lola fastened it on her coat. She looked at the clock. Only twenty minutes! She turned on the radio again, then shut it off. What on earth was the matter with her?

Less than an hour had passed when she heard Carl's motor. It was skipping playfully. The engine died, then came on again and with all cylinders firing freely. Lola would know that blue plane with the silver wings anywhere. She shielded her eyes and watched it. How silly she had been. How silly!

And then it happened. One minute the plane was in the air. The next it hurtled towards the ground. It crashed nose down, far out on the field, and turned over on its side. Someone screamed. Spectators ran towards the plane. Lola ran with them. It was she who had screamed. The sound echoed in her ears, and the sickening crash of the plane. They pulled someone from the cabin. A single man. The plane burst into flames. Lola was crying. Right there in the middle of the field.

When she came to, Carl was with her. He was calling her name distractedly. "I'm all right, Lola. And Benny is back at Carlton Field."

"At Carlton Field?"

"Yes. He lost a pin or something, and wanted to look for it. He sent me back to tell you to pick him up in the car. He was afraid you would worry if we were away too long."

Lola's eyes slipped to the burning plane. It was all too apparent what might have happened, to the man perched in the lower side. Her hand slipped to the pin on her shoulder. It rested against her palm—two gold horseshoes, and two four-leaf clovers.

Canada's Food Rules

The Vitamin C Values Of Available Foods Are Compared

Canada's food rules call for one serving of tomatoes or citrus fruits or their juices every day. These are the food which are the best year-round sources of vitamin C and one serving supplies more than half the day's needs. The rest of the day's supply of this vitamin comes from the three servings of vegetables and the one serving of other fruit, prescribed by the food rules.

If it is not possible to use citrus fruits or tomatoes daily, extra servings of vegetables and other fruits will help make up the lack. To show how these compare with citrus fruits in vitamin C value, Nutrition Services at Ottawa has worked out the following comparisons:

A value of 15 has been set for one serving of citrus fruit or tomatoes and on that basis extra servings of the fruits and vegetables listed have been given comparative values.

One-half cup applesauce 3; two small bananas 3; 1/4 cup cooked black beans 15; 1/4 cup cooked broccoli 15; 1/4 cup kale 10; 4 rounded table-spoons cooked cauliflower 5; 1/4 cup cooked or raw cabbage 5; 1/4 cup cooked green or wax beans 5; 1/4 cup cooked peas 5; medium baked potato 5; (a boiled potato counts only 3, while the same potato mashed doesn't even rate); 1/4 cup cooked squash 5; 1/4 cup cooked turnips 5; 3 large raw turnip sticks 3; 3 strips of parsley 3; 4 large radishes 3.

Must Assume Cost

People Will Have To Supply Money For Social Security Plans

The finding of the money for all these social security plans with whom our advanced thinkers are presenting is not as simple as some people suppose. The Government, contrary to a wide, vague general impression, has no money of its own. The Government's money is the people's money; and all the cost of these plans and blueprints for our well-being, no matter how good they may be, must come out of our own pockets—out of pockets already pretty well emptied by the searching hand of Caesar.—Ottawa Journal.

HARD TO BEAT

Housewives of Knottshill, England, population 469, have challenged the rest of Britain to beat their knitting record, 7,368 garments. They have knitted 7,368 garments for the three services and made 103 garments for hospital patients.

High Potato Yields

British Columbia Grower Produced 900 Bushels Per Acre

The distinction of having grown what is considered to be the highest yield of potatoes per acre ever obtained in Canada—900 bushels per acre, of which 888 bushels were of marketable grade—goes to Leslie Gilmore, R.R. 1, Stevenson, B.C., when he took part in the 1943 potato competition of the Columbia Potato Growers' Association, Lulu Island, British Columbia. The Association has held these competitions annually for the past 10 years with the object of benefiting the potato industry at large by increasing yield per acre, quality, and demand, and by obtaining more uniformity in type.

These annual competitions are assisted by persons interested in improving the potato crop and by officials of the Dominion Department of Agriculture who also act as judges and verify the yields. In 1943 competition, the members of the Association in general obtained the highest yields per acre they ever had. Also the quality of the crop was much above average. The variety for the competition was "Netted Gem," which is popular in British Columbia and in several of the Western States. It has been grown commercially in British Columbia and Alberta for the past 40 years.

"Netted Gem" is not considered to be one of the highest yielding varieties, hence the 1943 record yield is all the more outstanding. Incidentally, the fancy wrapped and boxed potatoes imported into Canada and sold as "Idaho Bakers" are the same variety as "Netted Gem".

SELECTED RECIPES

SMALL FUDGE CAKE
1/4 cup butter or shortening
2 (1-oz.) squares unsweetened chocolate, grated
1/2 cup sugar
1/2 cup corn syrup
1/2 cup water
egg unbeaten
1 teaspoon vanilla
1 cup sifted pastry flour
1/2 teaspoon salt
1/2 teaspoon baking powder
1/2 cup sour milk

Melt butter in top of double boiler; add chocolate. When melted, add sugar, corn syrup and water and beat until blended. Remove from heat and cool. Add unbeaten egg and vanilla; mix thoroughly. Add sifted dry ingredients alternately with sour milk. Pour into a pan 8" x 8" x 2" lined with waxed paper, bake in a moderate oven (350 degrees F.) for 35 to 40 minutes.

NEW LABOR ACT

Hon. Charles Daley, labor minister, introduced into the Ontario legislature the Labor Relations Board Act, 1944, under which the new dominion war industry labor code will be applied to all industry in Ontario except farming, domestic servants, police forces, the hydro electric power commission and municipal bodies.

Spectacles were invented by a monk in Florence, Italy, in 1135.

Wonder Drug

Research Workers In India Have Evolved Quicker Method Of Producing Penicillin

Penicillin "The Wonder Drug" has reached India. Capable research workers have evolved a quicker growing method in India which takes a quarter of the time hitherto taken in laboratories elsewhere. Wheat-bran, is the secret of their success. It has now been discovered that the penicillin growth on a wheat-bran medium has an average activity of 30 Oxford units per gramme, whereas as the mould produced from sugar or glucose solution, the method used in western laboratories, yields only three to four units per cubic centimetre.

This Week's Pattern

4697
SIZES
12-20

By ANNE ADAMS

It's young, it's new, it's a sensation — this willow-slim dress frock that is so easily made, you can whip it up in spare moments. Pattern 4697 has that soft back skirluffles the fashion magazines are raving about. Of course the perky cap sleeves are not set in.

Pattern 4697 is available in junior misses sizes 11, 13, 15 and 17; misses' sizes 12, 14, 16, 18 and 20. See pattern for yardages.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anna Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. Because of the shortage of the mails delivery of our patterns may take a few days longer than usual.

SO NOW IT'S FISH

FROM FERTILIZER

Fish that are bigger, tastier and gamier can be produced in abundance in Canada's many small lakes. Experts tell us that a fish in a pond or lake are similar to livestock in the pasture field. They thrive or cease to thrive in direct relation to the food supply. Fish don't eat grass, but they do consume plankton (microscopic plant and animal life) and, remarkable as it may seem, plankton responds to application of chemical fertilizer just as vigorously and even more so than pasture grass and other farm and garden crops.

INCOME TAX DEDUCTIONS ARE CLEARLY EXPLAINED

Hanover, March 31, 1944.

Dear Editor:

It may be news to many people that the income tax exemption of \$108 per child we hear about includes the savings portion, so that the actual allowance is really \$54 per year.

If it weren't for the payroll deductions the small taxpayer would have been in for a further surprise as there seems to be a nigger in the wood pile. The tax for a married man is figured on income over \$660 and apparently exemptions for dependents are reduced by other factors as we find that for a \$1,305 income the rate with one child is the same as for the childless, \$31 fixed and \$31 savings. Not until the taxable income is over \$1,560 does the exemption amount to \$54 for a single child, and with three children an income of over \$1,860 is required in order to benefit to the extent of \$54 each.

Instead of \$108 as we thought, the chart shows outright allowances for each child to be much less on the lower incomes:

Income	One Child	Two	Three
\$1300	none	\$ 7.00	\$ 9.33
1400	30.00	22.00	19.33
1500	45.00	37.00	29.33
1870	54.00	54.00	54.00

I think the married man with a wife at home bringing up a family should be entitled to a little more consideration. Don't you?

Mr. Editor, here is the fixed or outright tax as given on the income tax form. Typewritten copies were sent to a few newspapers and they apparently found my figures to be correct:

Income	Child- One	less Child Two	Three
\$1300	Tax \$ 31	\$ 31	\$17 \$ 3
1400	65	35	21 7
1500	98	53	24 10
1570	121	67	26 12
1870	186	132	78 24

In addition to the above, there is an equal amount of savings portion tax from which certain insurance and mortgage payments are deductible.

Yours very truly,
J. W. GILBERT.

"Better stay away from the gas station over by the hangar. You're likely to get consumption."
"How?"
"Well, say, didn't you ever hear of gasoline consumption?"

SONGS FOR FAST DRIVERS

The motorist, with any regard for his future abode should sing hymns as the speedometer climbs upward. This was the opinion expressed in a safety sermon by a Colorado preacher. His selections at different periods are:

At 25 miles per hour: "I'm but a stranger here. Heaven is my home;" at 35 miles: "Nearer my God to Thee;" at 55: "I'm nearing the port and will soon be home;" at 65: "When the roll is called up yonder I'll be there;" and at 75: "Lord, I'm coming home."

We smile at this unusual suggestion in the interest of safety. Doubtless it has its merits. Songs often serve as reminders. They bring back memories, inspire confidence, alleviate sorrow and are laden with cheer.

Motorists and pedestrians alike are travelling the highway of life at equal pace—60 minutes to the hour and 24 hours each day. It is reasonable that every individual should be vitally concerned and exercise keen, personal regard for his future abode.

—Exchange.

The Victory Loan office is now in readiness for business.

Stanley Wyatt, of Claresholm, has been nominated as candidate of the Progressive Conservative party at Macleod.

Mrs. Bert Senaier was a visitor to Lethbridge over the week end, guest of Mr. and Mrs. Harry Hannan, returning home Wednesday night.

The seven-year-old daughter of Mr. and Mrs. Allan Weaver, of Macleod, died Wednesday from hemorrhage of the brain brought about through an attack of typhoid fever.

Lundbreck's big community sale starts tomorrow forenoon at 10 o'clock. A large attendance is expected. Weather appears favorable.

OUR BABY

You're such a tiny little son,
But look at all the hearts you've won.
You're so sweet, with your big blue eyes,
We know our gift came from the skies.

I know you're heaven sent, my dear;
For I feel the presence of an angel near,

When I hold you safely in my arms
And know the dearness of your baby charms.

You're such a happy little face,
You'll make this world a merry place.
Now you are off to the Land of Nod,
Please keep him safe for me, dear God.

—Violet I. Scott, Blairmore.

Lord give me grace to catch a fish so big that even I, when talking of it afterwards, will never need to lie.

James McCarthy, hurt in a motorcycle accident near Hillcrest on Thursday of last week, is still in a serious condition in the Bellevue hospital. His tongue was almost completely severed, and he is badly cut about the face.

Bob Edwards Eye Opener in 1903

remarked: We understand that when the Grand Trunk reaches the Peace River country a branch line will be run to the Arctic ocean, paralleling the Mackenzie river. This will give a fairly straight shoot from the Arctic circle to Edmonton, where they have no whales, and haul back hay and oats to the Eskimos, many of whom run large herds of walrus.

What between whales at Edmonton, sharks at Calgary, lobsters at Okotoks and suckers every place else, Alberta bids fair to become an interesting aquarium of marine curiosities. The whales will be utilized by Edmonton real estate men to help them spout.

High Honors for Heroic Canadian Pacific Sailors

Bringing to 41 the awards for heroism which Canadian Pacific seagoing personnel has won in this war these officers have been honored by the King "for good services" in vessels from among the 20 Canadian Pacific ships taken over by the Admiralty since 1939.

They are from among the 4,488 company men now on Admiralty service, with an additional 1,010 on "Mont" ships being used as armed cruisers and 101 in shore posts. Of the 18 ocean liners and fast-freighters and the two British Columbia Coast Service vessels in which they went to war nine have been announced as lost—two from the peacetime Pacific fleet, four from Atlantic runs and one from the coast service.

Three Officers of the Order of the British Empire, four Members of the same Order and three commendations for their actions under attack make up the latest list which follows an earlier summary showing 81 decorations and mentions in despatches.

The new names on the company's honor roll of the sea are: Capt. R. A. Leicester, O.B.E., (1), master of a vessel sunk in the Mediterranean with Engineer Officers Edward E. Stewart (6) and William B. Harris (7), both of Victoria, winning M.B.E.'s in the same action, all three decorations for minimizing loss of life. Chief Officer Donald Smith, O.B.E., of Vancouver, (2), and

First Officer Leonard Johnston, M.B.E., of Vancouver, (3), who guided 41 refugees to safety in Batavia after the Empress of Asia in which they served had been gutted and sunk by the Japs off Singapore.

Chief Engineer William Nelson, O.B.E., of Victoria, (3), and Capt. L. C. Barry, M.B.E., (4), for more than two years of continuous operation in dangerous waters.

Capt. George Gould (5) and Chief Officer John St. Claire Clarke, (9), both of Vancouver, and Chief Engineer D. Cowper (10), for good services when the Empress of Canada was torpedoed and sunk by the Italians off Free-ten, West Africa.

Quite a number of local Elks attended the big district meeting at Granum on Tuesday night, which was attended by several grand lodge officers. George McEwan, P.E.R. of Blairmore Lodge, was elected incoming district deputy.

Sandy: "Why do they keep putting jokes in the paper about Scotmen being tightwads?"

Friend: "Why don't you call up the editor and ask?"

Sandy: "What! And who'd pay for the phone call?"

We Can Do Better

IN the past, wars have brought I with them a high cost of living, ending with inflation.

This sapped the strength of nations and added poverty and injustice to the other tragedies of war.

Later it has led to falling prices and unemployment.

In this war, we Canadians are determined to head off this danger.

We have done much to avoid a repetition of the disastrous price rises of previous wars.

We have paid higher taxes. We have bought Victory Bonds. We have severely limited profits.

We have put a ceiling on prices. And to make it possible to hold the ceiling, wages and salaries have been controlled.

In one way or another most increased costs have been absorbed and very few passed on to the consumer.

Holding the ceiling has been a struggle. But the results have been worth while. From 1914 to 1919 prices rose 60%. From 1939 to 1944 the rise has been only 18%.

This effort of the Canadian people has been successful enough to be noted in other countries.

But we must continue to hold the line. We need not let history repeat itself. We can do better.

We can all help—

By cutting down unnecessary spending, and buying Victory Bonds instead.

By not hoarding or buying in black markets.

By not taking advantage of the war situation to press claims for higher prices, higher wages, higher rents or higher profits.

(This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation later.)

The Future Of Germany

ALTHOUGH IT IS FREQUENTLY STATED by officials of the Allied command that an early end to the war should not be expected, there is bound to be widespread speculation as to the fate of Germany when she is finally overcome. Naturally there is a general desire to see a nation which has so brutally overrun the greater part of Europe made to suffer for her crimes, and numerous proposals have been brought forward in this connection. As in many other matters related to the war, it cannot be expected that the Allied leaders will make any definite commitment in advance, but it is believed that a plan does exist. Following the conference at Teheran, when Prime Minister Churchill, Marshal Stalin and President Roosevelt met, it was announced that problems of the future had been discussed, and without doubt the fate of Germany figured in these conversations.

Ensure Peace And Security

While there are many who are of the opinion that Germany should be drastically stripped of territory and resources, it is thought that action in this regard may not go to the lengths sometimes advocated, but that Germany war industries must be entirely destroyed, and that measures must be taken to make sure that they have no opportunity to manufacture war materials in the future. The opinion has also been expressed in the British press, that Allied supervision must be exercised over many of those industries which remain, including the transportation and power services. In regard to territorial settlements it is clear that Germany will have to relinquish all the land she has acquired by aggression and that her boundaries will have to be adjusted in the interests of European peace and security. There is also the probability that certain states now within the Reich, such as Austria, may choose to withdraw when the war is over.

Re-education Is Important

Official circles have not favoured plans for partitioning Germany into a number of small units, for history has shown that such action only serves to strengthen national spirit and to promote trouble and unrest. It is also felt that to bring about her complete financial and industrial collapse would have a serious effect upon the whole economic structure of Europe. It is apparent, however, that she will be stripped of all means of building up another war machine or in any way preying on surrounding nations. Present plans for a strong European Federation also make it appear unlikely that Germany will ever again menace the security of that continent. One of the most important problems which will arise in connection with the settlement of war will be the re-education of the German people. The destruction of the Nazi ideology, and the substitution of normal, sane thinking will be an undertaking of gigantic proportions and of the utmost importance to the future of the world.

"I said good-bye to Constipation!"

"I've given up pills and harsh cathartics. I found my constipation was due to lack of 'bulk' in my diet—and I discovered that KELLOGG'S ALL-BRAN is a perfectly grand way to get at the cause, and, help correct it!"

"For this is your trouble, too! 'Doing' with harsh purgatives—with their lack of lasting relief! Try eating a serving of ALL-BRAN daily, with milk, or sprinkled over other cereals. Or, eat several such servings daily. Drink plenty of water."

Get KELLOGG'S ALL-BRAN at your grocer's today—in either of 2 convenient sizes. Made by Kellogg's in London, Canada.

Jet-Propelled Ship

Invented by Englishman And Is Now Actually In Existence

Close on the disclosure that a jet-propelled aircraft had been built came word that a jet-propelled ship is actually in existence, capable of making fast speed through water although without engines, propeller, rudder or funnel. It is the invention of P. H. Wild, an Englishman, whose brother, S. O. W. Wild, has renewed the patent on the invention in Britain. "My brother has carried out experiments with a ten-foot boat," said Mr. Wild. "It is propelled by jets of highly compressed products of combustion. He prefers to describe his method as 'ejector propulsion.' Jet propulsion for ships has long been a subject of experiment and the Admiralty were responsible for some which were carried out nearly 50 years ago.

YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, dizzy spells, irregular periods, are weak, nervous—due to the "middle-aged" period in a woman's life, take Lydia E. Pinkham's Compound. It's helped thousands upon thousands of women to relieve such symptoms. Pinkham's Compound is also a fine stomach tonic! Worth trying! Made in Canada.

Price Control And Rationing Information

Q—I understand that the coupon value for most preserves has been changed. How much sugar may I now get for a preserve coupon?

A—No change was made in the coupon value for sugar. The amount of sugar obtainable for a preserve coupon remains at half a pound.

Q—I am thinking of buying a retail business and believe there is some regulation that must be observed in that connection. What is it?

A—You must apply to the nearest office of the Wartime Prices and Trade Board for a permit entitling you to enter the business in question. Please give complete particulars when making application.

Q—Is it possible to buy two preserve commodities on one coupon?

A—Yes. Any combination of rationing preserves may be purchased, providing the total value of the preserves does not exceed the total coupon value.

Q—I buy very little butter and use very few coupons. My grocer always tears out the unused coupons and keeps them. Should he do this?

A—No. You are required under rationing regulations to remove the unused coupons which are no longer valid and destroy them.

Q—My son celebrated his twelfth birthday yesterday. I would like to obtain his ration card. Please advise as to how I can do this.

A—Sorry, you will not be able to get ration cards for your son until the new books are issued... about April 1st. As he did not become 12 years of age before September, 1943, he is not eligible for these coupons until the new book is issued.

Q—Is there no rule against storekeepers keeping goods under their counters for their best customers?

A—There is no such rule but the merchant who thinks ahead will not, we believe, adopt this practice for extensively. Instead, he will endeavor to make as equitable a distribution as possible of his goods amongst his customers.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Has Greatly Increased

Number Of Canadians Filing Income Tax Returns Is Around 2,000,000

Before the war, income tax returns were required from about 300,000 Canadians; now the number is around 2,000,000. The work of income tax staffs is therefore nearly seven times as great, and one result is that assessments are away in arrears. Those taxpayers are fortunate who know whether or not their returns for 1942 were correct, though filed a year ago, and thousands are said to be waiting to hear about 1941. It has been explained that even if the department were able to obtain qualified extra help it would prefer to level out the work to cover the entire year; but now another deluge of returns is at hand and the previous year is not cleared up—Toronto Telegram.

Glass eyes were used by the Romans and Egyptians.

Captured German Arms

Moscow Exhibit Includes One Of Germany's Closely Guarded Secrets

A Moscow exhibit of newly-captured German arms includes a self-propelled, electrically-controlled land torpedo used as an anti-tank weapon. Tass News Agency said the torpedo, captured along with a 10-barrel reactive mortar mounted on an armored carrier, had been a close secret by the Germans, but had been abandoned during the rapid retreat from the Leningrad sector. Among other exhibits are a 105-mm. gun with range of about 11 miles, and a 150-mm. gun with a range of more than 12 miles.

GEMS OF THOUGHT

SIMPLE THINGS
I wonder if the tides of spring will always bring me back again. Mute rapture at the simple thing Of lilacs blooming in the rain.
—Thomas S. Jones, Jr.

In eastern lands they talk in flowers, and tell in a garland their loves and care—arival.

What is true, simple and sincere is most congenial to man's nature.—Cicero.

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.—Mary Baker Eddy.

In character, in manners, in style, in all things, the supreme excellence is simplicity—Longfellow.

Spring rides no horses down the hill, But come on foot, a goose-girl still. And all the loveliest things there be Come simply so, it seems to me.
—Edna St. Vincent Millay.

BRITAIN'S AIRFIELDS

The total area of Britain's airfields today is greater than the combined area of the counties of London and Middlesex. Flying from London to Liverpool, a distance of some 200 miles, one is never out of sight of an airfield.

Riders for the Pony Express were expected to cover 75 miles in one day.

Wheat Syrup

Now Process Developed In U.S. To Manufacture Syrup From Wheat

A process for manufacture of syrup from wheat has been perfected in United States and commercial production at the rate of 1,000,000 pounds per month "is already under way," Cecil Lamont, vice-president of Northwest Line Elevators Association, said at Winnipeg.

He said development of the wheat syrup was revealed at the recent United States farm chemurgic conference at St. Louis, Mo., from which he just returned. The conference was attended by leaders of agriculture, industry and science from United States, Canada, South America and China.

The process was developed at the United States government's northern research laboratory at Peoria, Ill., and the product now was being manufactured in a beet sugar plant. Its quality and taste equaled that of corn syrup.

With eight plant adjustment, Canadian sugar beet plants could produce upward of 60,000,000 pounds of wheat sugar annually, he said. There are two plants in Ontario, two in Alberta and one at Winnipeg.

C.W.A.C. ITEMS

Sergeant Agnes Little, daughter of Mr. and Mrs. T. Little, of Dauphin, Manitoba, has been promoted from the rank of corporal in the Canadian Women's Army Corps. Sergeant Little enlisted in June 1943. She is Orderly Room Sergeant at No. 38 Company CWAC in Ottawa.

Sergeant Kathleen Monaghan, formerly of Montreal, has been promoted from the rank of corporal in the Canadian Women's Army Corps. Sergeant Monaghan enlisted in January 1943 and is employed in the Quartermaster's Stores at No. 40 Company CWAC in Ottawa. Her mother, Mrs. M. Monaghan resides in Berraghy, County Derry, Ireland.

Staff Sergeant Catherine Angus, daughter of Mr. W. M. Angus of St. John, N.B., has been promoted from the rank of Sergeant in the Canadian Women's Army Corps. She is employed by the Supply Chief of the General Staff in Ottawa. Sgt. Angus enlisted in June 1942.

Corporal Daisy Trevelyan, daughter of Mr. and Mrs. T. Trevelyan of Creston, B.C., has been promoted from the rank of Lance Corporal in the Canadian Women's Army Corps. She is employed in the Directorate of Organization Ottawa. Cpl. Trevelyan enlisted in July 1942.

Sergeant Hazel Nell, daughter of Mr. and Mrs. R. W. Nell of Vernon, B.C., has been promoted from the rank of corporal in the Canadian Women's Army Corps. She is employed in the office of the Judge Advocate General in Ottawa. Sgt. Nell enlisted in August 1943.

Nancy Carroll, famous Hollywood screen star, paid her first visit to a Canadian Women's Army Corps establishment when she was the guest of the sergeants at Cathedrals Barracks in Halifax recently. "I am impressed by the interest of purpose of the Canadian girls," the album-haired actress said. "Everyone seems to know what she is doing and why. You are doing a splendid job." Miss Carroll visited the recreation room, the sick bay, kitchen, mess hall and the girls' sleeping quarters where she asked the girls about their Army life and drew many requests for autographs.

There are approximately 2,000 kinds of plants which yield fibres useful to man.

HEALTH LEAGUE OF CANADA

More Vitamin C Per Grapefruit

As Mortimer Snerd, "It looks as if Spring has sprung!" But in spite of that good news we all realize that it will be several weeks before our gardens start supplying our tables with any of those little, fresh, green things that are so full of vitamins. Meanwhile, the supply of vegetables on hand in the cellar is dwindling—and so is any Vitamin C that they may contain.

These next few weeks mark a Vitamin C danger-point for Canadians—for we are more likely now than at any other time of the year, to suffer from a shortage of ascorbic acid.

So let us make it a point of honor with ourselves to see that our families have an orange or half a grapefruit every day without fail. Citrus fruits are plentiful now and can be a very welcome help to the diet problem that always seems to face us at this time of year.

A select and beautiful—grapefruit we buy are still rather green so bring them home, put them in a spot that is not too warm (but not in the refrigerator) and let them stand a week before you use them. They will be ripe, better in flavor, and the Vitamin C content will be higher. This means keeping a supply of grapefruit on hand ahead of time but you'll find that it's well worth the effort. Try it and see!

Paint with ALABASTINE

over WALLPAPER, WALLBOARD PLASTER or other SOLID SURFACES

ONLY 75¢

Water Paint for Walls and Ceilings

SMILE AWHILE

"Those people talked all the time you were playing. They couldn't hear a word of your music."

"That's all right," replied the eminent performer. "My music prevented me from hearing their conversation."

"I give my husband plenty of fish; it feeds the brain if you've got a lot of thinking to do."

"I give mine plenty of food for thought, too."

Myrtle: "John's got his Home Guard uniform now, and he's dying for a parachute jumper to come along."

Phyllis: "Well, why don't you knit him one?"

Daughter (sighing)—John does not love me any more.

Mother—How do you know?

Daughter—When he brings me home at night now, he always chooses the shortest way.

Motator—How far to the next town?

Native—About three miles in a bee line.

Motator—Well, how far is it if the bee has to walk and roll a flat tire along?

"Now, Bobby," said the teacher, "tell me where the elephant is found?"

The boy hesitated for a moment, then his face lit up. "The elephant," he said, "is such a large animal it is scarcely ever lost."

Bully (to small boy)—Why run away? I thought you said you could lick me with one hand tied behind your back?

Small Boy: "I'm just going home to get some string."

Cowboy—"What kind of a saddle do you want—one with or without a horn?"

Dude—"Without a horn, I guess. There doesn't seem to be much traffic on these prairies."

"Do you ever permit your husband to have his own way?"

"Oh, yes, occasionally. He is sure to make a fool of himself, and that makes him easier to manage next time."

Wife—A penny farthing for your thoughts, dear.

Husband—What is the farthing for?

Wife—Purchase tax.

Gardener—This, madam, is a tobacco plant.

Old Lady—How interesting! How long will it be before the cigars are ripe?

Grasshopper green is to be the fashionable color in wool this spring.

The very thing for jumpers.

YOUNG BELLINGER

Nolan Edwards, six, is believed to be the youngest bellinger in Britain. Every Sunday morning he walks 2 1/2 miles to ring the bells of Shephard Parish church near Loughborough, Eng. His father and mother are bellringers. They instructed him when he was five.

Started In Early

Man 73 Has Been Working With Clocks For 58 Years

One of the few men in the nation still making old-fashioned grandfather's clocks is 73-year-old Bert F. Wood of Winchester, New Hampshire. Wood began making and repairing clocks when he was 15 years old and has been at it ever since. He makes the works first and then builds the cabinets. The wood for the cabinets comes from old pine which Wood bought up at auctions and from second-hand dealers. It takes him about a month to complete one clock.

Here's Speedy Relief For

Tender, Aching, Burning Feet

Your feet may be so swollen and inflamed that you can't go another step. Your shoes may feel as if they are cutting into the flesh. You need relief over the pain and torture you give yourself to get relief.

Two or three applications of Moore's Emsol Oil and in a few minutes the pain and soreness disappear.

No matter how discouraged you have been, if you have not tried Emsol Oil then you have something to learn. Get a bottle today! At all drugstores.

Stiff Defence

Nazi Luftwaffe Ran Into Trouble In Sweepers Over Britain

After the Luftwaffe failed to crush London in the daylight Battle of Britain, it expected to smash the ground defenses which consisted of the famous British three inch anti-aircraft guns. Instead, the Nazis came up against a secret British 3.7-inch anti-aircraft gun, firing a shell six pounds heavier and 12,000 feet further than the 58 millimeter German counterpart and with 2 1/2 times the accuracy of its predecessor—just one of the weapons which helped to defeat the German offensive in 1940.

New Method Is Developed To Beat U-Boats

LONDON.—When Captain F. J. Walker, D.S.O., brought his second escort group of sloops into port after killing six submarines, it was a great day for one navy and also proof of the merit in newly-developed tactics, which beat the dangerous pack-hunting technique of the Nazis.

The answer—anti-submarine packs of sloops to hunt packs of submarines.

But not so very long ago the ships were not there to constitute such special escort groups as that commanded by Capt. Walker, who took his ships out on a 20-day patrol and came back with five of his six ships and a bag of six U-boats.

On many occasions, it was a case of providing convoys with just as many or few—escort ships available at the place of origin. Sometimes it was a case of few and then it developed that guarding ships must remain ever close to their charges.

Surfaced U-boats could sometimes lure corvettes away and then dash in for an attack on the merchant vessels.

Gradually more destroyers and sloops and corvettes and the arrival of the frigates, some of them made in Canada, gave the navy the scope it wanted. The "killer" groups were formed and went after the submarine "packs".

Capt. Walker's great sortie was one of the results of this policy. Because of the number of ships available he was in a position to detail sloops to hunt one U-boat for as long as nine hours.

DIVERTING RIVER

Change In Yellow River's Course Will Shorten Japanese Lines

WASHINGTON.—The Yellow river, which through the centuries has changed its course several times, is once again being diverted—this time to serve Japanese military purposes.

A Japanese Domei agency broadcast heard by United States government monitors appears to confirm earlier Japanese reports they deliberately are shooting "China's sorrow" into yet another bed.

If true, the change may represent a shortening of Japanese military defense lines in north China by 500 miles, making the difficult-to-cross Huang Ho (Yellow river) run closer to the forbidding Shanai escarpment.

The Domei report, dated April 1 from Peiping, said work is 70 per cent. finished on diverting the Yellow river from its present course into the Wei river which would make it flow into the sea near Tientsin.

WORK TOGETHER

Practical Example Of Consultation Machinery Of Allies

LONDON.—Prime Minister Churchill told the House of Commons that Soviet Foreign Commissar Molotov's statement of Russia's purpose in carrying the war into Rumanian soil "forms a particularly satisfactory example of the operation of consultation machinery between the Allies."

"The Soviet government was good enough to send the text beforehand," Mr. Churchill said. "We expressed our admiration for it . . . it certainly is likely to be a great help to the common war effort."

The prime minister said the machinery for such consultations was set up at the foreign secretary's conference in Moscow.

ADMIT ATTACK

But Nazis Make Light Of Damage To Warship Tirpitz

NEW YORK.—The Nazi agency D.N.B. acknowledged the German battleship Tirpitz had been attacked recently by aircraft at a northern Norwegian base, but claimed "the attack was dispersed by our defence and did not attain full effect."

The German broadcast followed a British admiralty announcement that several bombs had hit the warship.

"The enemy suffered considerable losses in destroyers" during a convoy operation incidental to the attack, said D.N.B.

RUMANIANS DESERTING

NEW YORK.—Rumanian soldiers are deserting "by the thousands" and skirmishes are occurring in many regions between these deserters and German troops, the Bulgarian home radio said, quoting an Istanbul despatch.

WORE UNIFORMS

Two British Naval Officers Made Remarkable Escape From Germany

LONDON.—Two British naval officers escaped from a German prisoner of war camp without bothering to disguise themselves, wearing for their 22-day trek through enemy country their Royal Navy uniforms.

Lieut. Dennis Kitchner, 25, and Stewart Campbell, 22, when back in England said they simply "walked out" of the prison camp one evening.

They set out along the 30-mile road to Bremen, posing as merchant marine officers, and completed their trip to the city by morning.

They were unable to get food because even cups of ersatz coffee cost coupons.

But train tickets could be had, and soon the two were speeded to their next destination. From there they took an underground route to the coast and freedom, allaying suspicion several times by claiming to be Dutch naval officers.

Twenty-two days after leaving the camp the two were home.

They were unable to get food because even cups of ersatz coffee cost coupons.

WAR SUPPLIES

Surplus Stocks May Be Released For Civilian Use

OTTAWA.—It was reliably learned here that the War Assets Corporation—a crown company dealing with re-allocation and disposition of surplus war supplies—had asked the three armed services to dig through their stores in search of articles such as rubbers, shoes and underwear which are in short civilian supply.

The corporation was reported to have asked them especially for any spare rubbers to relieve heavy civilian demand.

One report said the services had been asked to provide 80,000 surplus pairs of suspenders for civilian release. Of this number, 26,000 pairs would be turned back to manufacturers to be reprocessed into about twice as many narrow type and half elastic suspenders.

But train tickets could be had, and soon the two were speeded to their next destination. From there they took an underground route to the coast and freedom, allaying suspicion several times by claiming to be Dutch naval officers.

Awarded D.S.O.

Lieut.-Col. A. A. Kennedy, Owen Sound, Ont., who has received the Distinguished Service Order in Italy.

TO AWAIT REPORT

Before Draft Is Made Concerning Post-War Radio Policy

OTTAWA.—The federal government likely will not draft a post-war radio policy until the House of Commons committee on radio makes its report and recommendations to parliament, War Services Minister LaFleche indicated.

Gen. LaFleche told The Canadian Press the policy would depend on recommendations brought down by the committee which is studying radio broadcasting and more particularly the handling of the affairs of the publicly-owned Canadian Broadcasting Corporation.

It is not known when the committee will complete its hearings and report to parliament, but there are indications it will not be for some time.

Defence Minister Ralston Greets V.C. Winner

The pride felt by all Canadians in Major Paul Triquet, hero of the battle of Ortona and winner of the Victoria Cross for his gallant action, is expressed by Defence Minister Ralston, while Mrs. Triquet looks happily on. Major Triquet returned to Canada recently and is expected to remain here some time on leave. He came by Ferry Command transport from Britain.

A German Shell Missed Him By Inches

Smashing through the parapet of the mid-upper turret, a shell from a German night fighter narrowly missed Pilot Officer Murray Stewart of St. Walburg, Saskatchewan. The heavy bomber, of the Leaside Squadron, had just finished dumping its load of bombs on Brunswick when it was attacked by an enemy fighter. Shells smashed its port rudder and holed the port tie. The Nazi aircraft did not escape scot free, however; Lieutenant A. Burke of Powell River, B.C., tail-gunner, raked it from end to end. Squadron Leader W. W. Strachan of Trail, B.C., then snipped the Canadian bomber back to its base.

Subaltern Mary Churchill Wears Her C.W.A.C. Uniform

Looking pleased as punch, charming Subaltern Mary Churchill, daughter of Prime Minister Winston Churchill, is shown above wearing the Canadian Women's Army Corps uniform which was presented to her in Britain recently. At left, Miss Churchill, who is a Subaltern in Britain's Auxiliary Territorial Service, tries on the cap. On the right, she models the smart C.W.A.C. Summer outfit before a warm fireplace 'Somewhere in England'.

Food Allotments For Greece Are To Be Increased

OTTAWA.—Prime Minister Mackenzie King announced it has been decided to increase food allotments to Nazi-occupied Greece to 31,200 tons monthly—an increase of 11,000 tons—and to add 2,000 tons of sugar for this year.

Shipments during January and February were 20,200 tons a month plus 2,000 tons of rice. The increase will be made up of an additional 9,000 tons of wheat and another 2,000 tons of rice.

Mr. King said the Swedish government has offered to make three additional ships available to carry the additional supplies. The present fleet numbers 10 ships under charter to the Swedish Red Cross.

The increased allotment, made in response to a request from the neutral relief commission in Greece, will boost the total monthly allocation to 24,000 tons of wheat, 4,700 tons of pulses, 1,000 tons of fish, 600 tons of canned milk, 300 tons of soup, 300 tons of vegetable stew mix and 300 tons of high-protein spaghetti plus 2,000 tons of rice and 2,000 tons of sugar for the year.

The additional wheat up to 9,000 tons monthly will be provided initially as a gift from the Argentine government. The additional foodstuffs will be supplied by the United States government as lend-lease to the Greek government.

France Likely To Again Trade With Canada

LONDON.—In post-war rehabilitation, France will likely again become a good customer of Canada in the European market.

The Fighting French authorities here now are studying the economic problem of post-war requirements to put the nation back on its feet, but it is a slow task when surveys have to be carried out, as they are, by the underground movement in France. So far they have not been able to estimate definitely what their needs may be because if war returns to French soil any present calculations would be completely upset by the havoc wrought in those battles.

Before the war, France imported considerable quantities of Canadian products, both industrial and agricultural.

In 1938 total imports from Canada were valued at more than \$18,000,000, with wheat making up about \$8,000,000 of this figure. Raw furs, French soil any present calculations \$4,000,000; copper third with a value of nearly \$2,000,000. Lumber, asbestos, bleached wood pulp for the great French rayon factories, cheese and apples were other Canadian products which sold in France.

As many of these marketing outlets probably will be open again to Canadian firms, but the whole economy of France will require aid from other countries.

Machinery will be needed for heavy industries. The coal industry will need equipment replacements and so will the electrical plants and huge automobile factories. The textile industry, one of the most important in France, will be run down and the transportation system of railways and canals will take years to get back to its former state of efficiency. The vast agricultural area of France will be begging for farm machinery with which to till the soil and reap the crops.

Many Canadian industries may be in a position to turn out these products the French will need. In the field of agricultural exports, France probably will be a lucrative Canadian market and Canadian wheat should stand an excellent chance if shipping space is available.

APPLE SYRUP

OTTAWA.—Canada has been manufacturing apple syrup on a commercial basis for the past two years and it is being used in the baking industry and as a glycerine substitute in the tobacco industry, a federal agricultural department spokesman said.

LONDON.—Replying to a question in the House of Commons, War Secretary Sir James Grigg declared he was "generally satisfied" that the reports of correspondents on the military situation in Italy represented the true picture of operations there.

BURMIS GIRL TO SPEAK OVER CJOC

Pte. Mary Wakaluk, of Burmis, will speak over Radio Station CJOC on Friday, April 14th, at 10 p.m. Pte. Wakaluk, who is now in the Canadian Women's Army Corps, has something very interesting to say about life in the C.W.A.C.

Girls of Alberta, there's a place for you, too, in the C.W.A.C. See your nearest Recruiting Officer, or write to District Recruiting Officer, Traders Building, Calgary, for full information.

"This is a Women's War, too"

J. S. D'Appolonia has been awarded the contract to build at \$26,000 cold storage plant at Creston for the Creston Co-operative Fruit Exchange.

Examination dates for Grades 9 and 12 students in Alberta high schools were announced last week and as follows: Grade 9 from July 10 to 14, for grade 12 June 15 to July 14.

Following the regular service at Central United church on Sunday evening a congregational meeting was held, at which by unanimously supported resolution the pastor, Rev. E. B. Arrol, was asked to remain. Mr. Arrol had practically decided to end his pastorate here in June of this year after four or five years of successful work. He has informed the congregation that he will take a week to consider their invitation.

The first meadow lark was reported at Claresholm on April 3rd.

On the occasion of the celebration of the fiftieth wedding anniversary of Mr. and Mrs. Fred Palmer, Mr. Palmer was recipient of a gold-headed walking cane from the Claresholm Oddfellows' lodge. He has been a member of the order for fifty years, joining in the eastern States.

The Kimberley Ministerial Association met recently, when action was taken protesting against the use of the Sunday hour of worship and religious instruction for secular purposes. It was decided to hold daily vocation school sessions for two weeks in both July and August. Present at the meeting were Father F. Monaghan, Rev. T. E. Rouleston and Archdeacon B. A. Resker.

Our only source of prosperity in this country is the work we do to supply the needs of those who in turn supply our needs.—Henry Ford.

C. J. Tompkins was down from Calgary the early part of the week CJ is anxious to move back to Blairmore, but so far has been unable to secure housing accommodation.

Chief Justice Davis A. McDonald, of the appellate division of the British Columbia supreme court and formerly of Fernie, died at Rochester, Minn., on Monday at the age of 67 years.

There are More Good Reasons for Buying War Bonds than for buying any single thing ever offered to the Canadian People.

EVERYONE of us wants to win this war—to see peace restored—to have jobs to get back to when the war is won.

MILLIONS of us, already in the Armed Services have dedicated time, effort, lives if need be, to the Nation. The rest of us have not been called to arms. Our big chance to get into the fight is to buy the Sixth War Loan to the absolute limit. This is the People's Loan, and we, the People, will not fail—

**We will not fail to buy Bonds—and keep them.
We will not fail to buy Bonds—and so help to keep Canada the kind of land they want to see when they come home.**

REMEMBER—We are lending not spending. The money we lend is still ours to use in the years ahead when we need it most.

Buy for PATRIOTISM . . . Hold for SECURITY

Bandits got \$5,000 from a Texas doctor's safe. Other doctors doubtless would like to know his collecting methods.

There are 101 teachers on pension in Alberta, and it is estimated that 800 will eventually go on pension. A pensions fund has been operating for five years, and has reached the \$1,000,000 mark.

The local committee was busy last week end studying the actions of notorious bums, and by Sunday afternoon were in position to make their awards, not yet announced. We understand, however, that a certain two or three are in the running for first prize as Blairmore's greatest curse.

Fire destroyed the Clark Block at Lethbridge on Sunday morning, doing damage estimated at \$100,000. The building was occupied by several stores. Included in the loss was about a ton of clothing packed and awaiting shipment to Timovshanskaya, Russia, a city recently adopted by the city of Lethbridge.

The IOOE whist drive held on Tuesday night of last week in the Anglican hall was well attended. The committee for the evening comprised Mrs. H. Pinkney, Mrs. Jack Patterson and Mrs. Sam Patterson. Prizes were won by Mrs. Mackie, first; Mrs. Mickey McKay, second, and Mrs. Bob Shaw, mystery box.

"COMBINED OPERATIONS INCLUDE YOU"

● Invasion demands more action from every fighting service . . . combined operations. Combined operations include you, too.

Despite the shortage of help and equipment, Canadian farmers have responded nobly to demands for increased production of foods.

But there is one thing on which a better job can still be done.

MORE MONEY is needed to fight a more intensive war.

All Canadians will be asked to furnish this money. It's a duty that we who are at home owe to the men on the fighting fronts.

In these days most farmers have higher incomes . . . money to save. And that is the job that they are asked to do . . . save money and lend it to Canada.

You are not asked to give money . . . just to lend it. When the war is over you'll have this money to "plough back" into your farm. So save now to lend to your country. Save to have money to improve your farm; money for new stock and implements; money for more land or new buildings . . . for a new car . . . for new furnishings and conveniences for your home.

All you can lend is little enough for a cause so vital for a need so urgent. And the more that you can save and lend to your country now, the more you will have for your own use when the war ends.
